

2019-2020 Science Teacher Position

We are looking for a science teacher who is able to teach high school biology, physics, and chemistry from a basic high school level to AP level.

Requirements:

- A bachelor's degree in education with a focus in at least one discipline of science

Applicants should be someone who:

- believes that education is not a spectator sport, but an experience that should be relevant, meaningful, and memorable
- reads sources, inside and outside of your area of expertise, in order to expand your knowledge as much as possible
- has an open mind, and is willing to adapt to a potentially different work environment (and way of doing things)
- demonstrates a passion for Japan and its culture, and is willing to be a responsible ambassador for your country and our school
- is interested in the psychology of learning, child psychology, second language acquisition, philosophy, and/or other related domains
- loves interacting with children and teenagers, but is also willing to apply discipline consistent with the school's approach
- can not only motivate students to learn, but teach them how to learn
- understands that the daily operation of a school is hard work, and is willing to put in the extra time and effort to help out beyond simply planning and teaching lessons
- has a certified teaching degree or a master's degree in the subject of instruction

Other useful skills:

- First aid or other medical training
- Website management skills
- Hands-on experience in robotics
- Basic programming knowledge (C++)

Please submit a cover letter and resume to contact@kaischool.com
